

I think that it is stupid that there is such an issue at hand with XM radio. I think that they should be allowed to put whatever programming they want on the air unless it is vulgar or offensive. I love XM radio and would hate to see it change. I listen to it all the time and would rather spend the money every month not to listen to annoying DJ's that ramble about nothing. I think that the NAB is just jealous that XM has come out with an amazing product. I think there are more important things to worry about right now in this country than wheter XM has sports and weather. They have the right and should be left alone.
